

Reversible Feed Handles

Feed handles can be positioned on the right or left hand side for ease of drilling and mounting in confined spaces.

Optional One-Touch adapter

Optional One-Touch adapter allows the use of up to 13mm twist drills to be used in the original arbor.

Optional Jet Oiling System

Optional Jet Oiling System for use with all drilling applications and types of cutters to extend cutter life and increase hole output.

Optional Chip Breaker

Optional chip breaker helps prevent the cutter from plugging the hole with chip debris, causing some false overloads and cutter life loss.

Body Height Adjustment

Loosening the pillar clamp allows the complete frame to be lifted up to a maximum of 60mm for specific drilling. The use of Hi-Broach cutters require the frame to be at the lowest position, while twist bit drilling required the appropriate amount of elevation to be adjusted for safe operation. The pillar clamp is required to be tightened before safe drilling may take place.

Note: Always engage the magnet before adjusting the body height.

Specifications

Model		WO-3200		
Power Source (Single Phase)		220~240 V AC 50/60Hz		
Electric Drill	Rated Power Consumption	W	900	
	Rated Current	A	4.3	
	No Load Speed	min ⁻¹ (rpm)	530	
Magnet Power Consumption		W	70	
Hole-cutting Capacity		Cutter	Hole Diameter	Plate Thickness
One-touch type HI-BROACH 25L			12 to 32 mm	9 to 50 mm
Magnet Holding Power		N (kgf)	9,000	
Magnet Dimensions		mm	99 x 177	
Mass (Weight)		kg	13	
Standard Accessories		• Guard Ass'y : 1 set
